RattanIndia's Revolt Motors expedites deliveries for all orders in hand, re-opens bookings for EV bikes from Friday, June 18th, 12PM

- **Bookings to re-open across 6 cities - Delhi, Mumbai, Pune, Chennai, Ahmedabad and Hyderabad on 18th June, 12:00 PM onwards**
 - **Upgrading the production capacities to cater to unprecedented demand**
 - **Preponing deliveries of existing bookings**

New Delhi, June 16, 2021: RattanIndia-Revolt, India's next gen-mobility company today announced re-opening of bookings for its electric motorcycles across the 6 operational cities from June 18th, 12PM onwards. The company had earlier stopped taking fresh bookings after witnessing an unprecedented number of bookings last month. The brand, currently operational in Delhi, Mumbai, Pune, Chennai, Ahmedabad and Hyderabad, will be re-opening for fresh bookings after confirming delivery dates for all existing orders in hand. In addition, Company is also bringing forward the delivery dates for the bookings made by customers which were earlier slated to be delivered in latter part of the current year.

Sticking to its promise of delivering more bikes to its customers and shortening the gap between booking date and delivery, Revolt has been vigorously working towards increasing the production capacities which will ensure the customers do not have to wait for their Revolt motorcycles for long post making their bookings.

Revolt has a completely contactless online booking system and customers can register for bookings through the "**Notify Me**" tab on its website www.revoltmotors.com.

With an aim to create a future of AI enabled next-gen mobility with 100% accessibility and 0% fuel residue, Revolt Motor's constant endeavour is to enable 'smart' in the world of automobiles. The Revolt EVs are eco-friendly, green & clean and the motorcycle's lithium-ion batteries not only reduce the rate of generating emissions, but also enable an uncompromised performance.

Commenting on the announcement, **Mr. Rajiv Rattan, Chairman, Revolt and RattanIndia Enterprises** said, *"We are thrilled to see the response for Revolt bikes. We are happy to see Revolt is growing rapidly and we look forward to expand the EV ecosystem in the country. With a huge demand of electric motorcycle in the market, we are confident that Revolt will fulfil the rapid shift towards EV mobility with an ecosystem which is environment friendly and sustainable in the country."*

Speaking on the announcement, **Mr. Rahul Sharma, CEO & MD, Revolt Motors** said, *"We are delighted with the response we have received from our customers across these 6 cities so far. The demand has been phenomenal, and we are sure that the various incentives being provided around pricing schemes like the My Revolt Plan (MRP) will help consumers make the shift to electric vehicles with ease. To add to that, the latest modification to the FAME II scheme with respect to the incentives is just going to fasten the adoption of electric vehicles in the country. We're also working towards increasing the production capacity, and hence striving towards reducing the delivery gap between booking date and delivery."*

The RV400 comes with a 3KW (Mid Drive) motor, powered by a 72V, 3.24KWh Lithium-Ion battery that can churn out a top speed of 85km/h. The bike can be operated through the MyRevolt App, which offers connectivity features such as bike locator/Geo fencing, customised sounds that you can change with just a tap on the screen, complete bike diagnostics, battery status, historical data on your rides

and KMs done, and also the option of locating the nearest Revolt Switch Station to swap your Revolt's battery at, and be on-the-move in less than 60 seconds. Revolt RV300 features a 1.5KW (Hub Motor), 60-volt, 2.7 kWh lithium-ion battery which delivers the longest range of 180km. It comes with USD forks up-front and a fully-adjustable monoshock at the rear.

Both the models feature three riding modes - Eco, Normal and Sport – each suiting to the riding style and needs of the driver. Both RV400 and RV300 come with Upside Down (USD) forks up-front and a fully-adjustable monoshock at the rear to give an unparalleled riding experience.

Revolt is looking to expand the distributor and service network across 35 cities in India. In addition to this, the company is also leveraging AI, to upscale and provide an in-house developed contactless experience for its customers.

Revolt Intellicorp

Revolt Intellicorp is the next-gen mobility company, created for the smart world. Revolt is working with a vision of democratizing clean commutes using next-gen mobility solutions and a mission to create a future of next-gen mobility with 100% accessibility and 0% fuel residue. With technology at its roots and class-apart products, Revolt has introduced India's first AI-enabled motorcycle without compromising on the performance or aesthetics of a regular ride.

Revolt Intellicorp commenced operations in 2019. The company offers two EV models in India currently, in addition to a full range of genuine parts and accessories available through its authorized dealerships.
