RattanIndia's Revolt Motors closes new bookings in less than 2 hours

National, June 18, 2021: RattanIndia-Revolt, India's next gen-mobility company got an electrifying response on the reopening of bookings of RV400 earlier today. The demand for their flagship model went over the roof, leading to Revolt shutting down their bookings in less than 2 hours of them going live on their website www.revoltmotors.com. The brand sold Rs. 50 crores worth of their flagship model RV400 in today's flash sale.

There has always been a huge demand for RV400, and today's response from buyers from the six operational cities including Delhi, Mumbai, Pune, Chennai, Ahmedabad and Hyderabad, who had been waiting eagerly to book their Revolt motorcycle was no different. The deliveries of the booked motorcycles will start from September 2021. In addition to this, seeing the demand for its product in the Indian market, the company will also reopen the bookings of the RV400 soon. All interested users who missed booking their RV400 this time, can register for the upcoming bookings by clicking on the **"Notify Me"** button on Revolt's website.

With reduction in the price of electric motorcycle after FAME II incentive revision and the Delhi government incentive on electric vehicles, the bike is currently priced at less than INR 1 lakh in the national capital. Revolt motorcycles have been an instant hit with the customers. Revolters across the cities have clocked over 2,00,00,000 kilometres so far. Revolt is also looking to expand the distributor and service network across 35 cities in India.

About RV400

The RV400 comes with a 3KW (Mid Drive) motor, powered by a 72V, 3.24KWh Lithium-Ion battery that can churn out a top speed of 85km/h. The bike can be operated through the MyRevolt App, which offers connectivity features such as bike locator/Geo fencing, customised sounds that you can change with just a tap on the screen, complete bike diagnostics, battery status, historical data on your rides and KMs done, and also the option of locating the nearest Revolt Switch Station to swap your Revolt's battery at, and be on-the-move in less than 60 seconds.

RV400 features three riding modes - Eco, Normal and Sport – each suiting to the riding style and needs of the driver. Also, comes with Upside Down (USD) forks up-front and a fully-adjustable monoshock at the rear to give an unparalleled riding experience.

Revolt Intellicorp

Revolt Intellicorp is the next-gen mobility company, created for the smart world. Revolt is working with a vision of democratizing clean commutes using next-gen mobility solutions and a mission to create a future of next-gen mobility with 100% accessibility and 0% fuel residue. With technology at its roots and class-apart products, Revolt has introduced India's first AI-enabled motorcycle without compromising on the performance or aesthetics of a regular ride.

Revolt Intellicorp commenced operations in 2019. The company offers two EV models in India currently, in addition to a full range of genuine parts and accessories available through its authorized dealerships. For more details, visit www.revoltmotors.com.
