

Revolt Motors Achieves ISO 9001:2015 Certification, Reinforcing Commitment to Quality and Operational Excellence

Marks a key milestone in building globally benchmarked processes and customer trust

New Delhi, 13 May 2025: Revolt Motors, India's No.1 electric motorcycle brand, has been awarded the prestigious ISO 9001:2015 certification for its robust Quality Management System (QMS). The certification issued by one of the world's leading testing and certification bodies, validates Revolt's commitment to consistent quality, process excellence, and customer satisfaction across its operations.

ISO 9001:2015 is the world's most recognized standard for quality management, awarded only to organizations that meet stringent international benchmarks across product design, production, supply chain, and customer service. With this recognition, Revolt joins an elite group of electric vehicle manufacturers adhering to globally standardized quality practices.

Speaking on this achievement, **Mrs. Anjali Rattan Nashier, Chairperson, RattanIndia Enterprises Limited**, said,

"This certification is a proud moment for all of us at Revolt. It is a reflection of our tireless pursuit of quality, innovation, and operational excellence. As we expand to new geographies and strengthen our position in the EV segment, this global certification reinforces the trust our customers and partners place in us."

Revolt's certification underscores the company's structured approach toward product development, manufacturing controls, continuous improvement, and customer-centric delivery. It also aligns with the brand's long-term strategic roadmap, which includes aggressive global expansion and deepening its after-sales and service capabilities.

This milestone further enhances Revolt's credibility with business partners, international collaborators, and institutional stakeholders. It ensures that every Revolt product—from the flagship RV400 to the latest BlazeX—is backed by a quality framework that meets international expectations.

As Revolt continues to lead India's transition to electric mobility, this achievement represents a critical foundation for delivering safe, reliable, and high-performance products—built not just for India, but for the world.

For more information on Revolt Motors certified product, customers can visit their website at www.revoltmotors.com or visit their nearest authorized dealership.

Revolt Intellicorp:

Revolt Intellicorp, founded in 2017, is leading the charge in India's electric vehicle landscape. With a mission to democratize clean commutes using futuristic mobility solutions, we have introduced India's first AI-enabled motorcycle, seamlessly combining innovation with

performance and aesthetics. With a strong focus on innovative technology, Revolt Motors is redefining the way we think about two-wheel transportation.

Beyond motorcycles, Revolt Intellicorp provides a full range of genuine parts and accessories through its authorized dealerships, ensuring a comprehensive electric riding experience. Join us in reshaping the future of smart, sustainable mobility.
